**K9 Immunity™**  
 Advanced Immune Support  
 24 hours a day - 7 days a week!  
**Plus**

**K9 Immunity Plus™**  
 has become the # 1 Veterinarian Recommended  
 Immune Supplement for dogs in North America, and for a good reason

– **It Works!** –

**More than one million dogs have been helped by K9 Immunity™ since it was first introduced in 2005.**

Now the next generation in canine immune support has arrived! New and Improved **K9 Immunity Plus™** is more than TWICE AS POTENT as any previous dog immune product. By applying the breakthroughs in 21st century immune science we found ways to increase the potency of **K9 Immunity Plus™** to levels more than twice as strong as anything else available today. We accomplished this by including the full range of micronized high molecular weight (HMW) heteropolysaccharide immune modulators derived from all natural sources, combined with a full spectrum of the immune-activating protein molecules that are required for absorption and bioavailability. These include Transfer Factors, Proline Rich Polypeptides (PRP's), Antimicrobial Polypeptides (AMP's) and the Antibody classes IgA, IgE, IgG and IgM - all in one easy to feed fish and liver flavored soft chew wafer. This combination of polysaccharide immune modulators and immunoproteins ensures immediate absorption and 100% bioavailability. **K9 Immunity Plus™** soft chews also include highly concentrated Omega 3 fatty acids from cold water fish oil - everything needed to give your dog the fighting chance he or she needs to overcome any health challenges they may be facing - all in one easy-to-feed wafer. Not only is this the most potent immune supplement ever developed, it is also the easiest to use. It looks like a tasty treat and your dog will love it!

**All in One Immune Support!**

**K9 Immunity Plus™** is 100% Made in American using only American ingredients. Aloha Medicinals is the actual manufacturer of the ingredients used in this cutting edge immune product for dogs, from start to finish. **K9 Immunity Plus™** ingredients are 100% Certified Organic under both EU and USDA regulations and produced in FDA registered facilities under strict GMP quality control. This way you are assured **K9 Immunity Plus™** is the SAFEST and the MOST POTENT canine immune supplement available anywhere today. Guaranteed. Don't risk your dog's health to anything less than the best. **K9 Immunity Plus™** is available through your veterinarian or direct from the manufacturer. No prescription is required. Give your dog the gift of health today.

**K9 Immunity Plus™** is supplied in three different sized, one-month packages appropriate for your dog's weight. It is dose corrected for dogs under 30 pounds, dogs from 30 to 70 pounds and for dogs over 70 pounds. No more guessing on dosage or trusting to a one-size-fits-all product. You can rest assured that your dog is getting the optimum dosage to provide them with the strongest fighting chance he or she needs to address the serious health challenges facing them today.
